Senior Staff Engineer

Application Number: PL2020040

Application Type: Engineering Plan Review

Application Name: WOODLAND GLEN 2ND PLAT(SANITARY SEWER MAIN EXTENSION)

The Development Services Department has received payment in the amount of \$7,049.45 for the engineering plan review and inspection fee and therefore approves the engineering plans dated and sealed on June 3, 2021 for the above referenced project. These plans were initially received by our department on February 21, 2020. The following conditions must be satisfied prior to the start of construction.

- 1. Contact Development Services Inspections (816) 969-1200 at least 48 hours prior to the onset of construction.**
2. Contact the Right-of-Way Inspector at (816) 969-1200 prior to any land disturbance activities within the rights-of-way. These activities may require a permit.
3. Any public improvements will require a set of record drawings. One (1) full-size (24"x36") set of records drawings (including the As-graded Master Drainage Plan) shall be submitted initially for review. The final submittal will require a complete set in a multi-page Portable Document Format (pdf).
4. Note that any improvements installed over City utilities or within City easements will not be repaired or replaced if future utility maintenance is required, including, but not limited to, pavement, curbing and guttering, landscaping, trees, shrubs, or other items.
5. Prior to issuance of a Certificate of Substantial Completion, all MDNR-required close-out documents shall be submitted to the MDNR by the applicant. Evidence that these documents have been submitted to the MDNR include: 1) an email from the engineer stating that the documents have been submitted, and 2) a copy of the documents submitted to the MDNR.
6. Please provide 2 hard copies of the set of plans with the City's red approval stamp. They are saved under the planning application number PL2020040. They can be dropped off to the attention of Steve Robbins at the Development Services counter.

Please contact me if you have any questions or comments.

Sincerely,

Sue Pyles, P.E.
Senior Staff Engineer
