RE: PL2021019  
Hook Farms 2<sup>nd</sup> Plat – Erosion, Siltation Control

Dear Mr. Nguinguiri:

Changes to Approved Site Disturbance Plans for Hook Farms Second Plat are being submitted along with this letter. Items that have changed from the previously approved plans are listed below. **The cost was not increased** as a result of the changes made to the plans, however a revised cost estimate has been included with the submittal of this letter. The changes were made so the SWPPP would coincide with the plans.

- Concrete washout removed from the plans.

If you have any questions or need additional information, please do not hesitate to contact me by phone at (816) 442-6065 or by email at [bworthley@olsson.com](mailto:bworthley@olsson.com).

Sincerely,

A handwritten signature in blue ink that reads "Brock Worthley". The signature is written in a cursive, flowing style.
