Hi Kristen,

Hector and I spoke this afternoon – we'll allow 'conditional approval' so you can proceed to order equipment. Please continue to work on the tower remediation item, knowing this is needed for 'full approval', and keep us advised of the status report. I'll hold off placing 'approved FDP plans' in the documents until we receive and then approve the report.

You're welcome to use this email documentation for reference/coordination with your team. Please let us know if you have any other questions or comments – glad to assist.

*** This email is from an external source, use caution before clicking on links or opening attachments. ***

Hello,

Following up on my voicemail from earlier today. Is it possible to get a conditional approval of this permit? We are facing shipping delays and are unable to order equipment until we have approval from the jurisdiction. We won't begin construction until we provide the tower remediation and it's approved. Please let me know.

Thank you,

Kristen Swenson

Kristen,

Staff have completed their initial review of the FDP submittal for the 900 SW Blue Pkwy location. One planning comment needs addressed per the attached applicant letter. You're welcome to contact Hector Soto with any questions or comments regarding the comments.

Please don't hesitate to follow-up if further assistance is needed – glad to assist with process guidance. Including Joe on correspondence, keeping him in the loop. This FDP is in conjunction with PRCOM20215821 (elec. permit requirement) per his comment on the attached letter.

Yours Truly,

Scott Ready | Project Manager - Dev. Ctr.
