Re: Water Main Extension at Lee's Summit High School, Browning Ave
Project# PL2010015

Dear Mr. Arling:

The Public Works Department hereby approves the engineering plans dated December 2, 2010, for the above referenced project. These plans were received by our department on December 6, 2010. The following conditions must be satisfied prior to the start of construction.

1. **The contractor shall contact Public Works Inspector, Bill Lyon, at 969-1829 at least 48 hours prior to the onset of construction for requirements to begin construction.**
2. The engineer's cost estimate has been accepted for this project. An inspection and plan review fee of **\$636.90** has been received.
3. The contractor shall contact the Right-of-Way Coordinator at 969-1838 prior to any land disturbance activities within the rights-of-way. These activities may require additional permitting.
4. Any public improvements will require as-builts to be provided to Public Works Engineering. Two CDs with the plans in TIFF format are needed. The CDs should be sent to Public Works Inspections at the address on the letterhead.
5. Resubmission of Engineering Plans will be required for re-review and re-approval if construction has not commenced within one year from the date of plan approval.

Feel free to contact me at (816)969-1826 or tony.reames@cityofls.net should you have any questions or comments.

Sincerely,

Tony G. Reames, PE
Staff Engineer

C: Bill Lyon, Public Works Inspections
GIS Manager, ITS Department
