CAUTION! This is an **EXTERNAL** email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Ryan – Our site is going to be tapped off of Arborwalk Blvd. just NW of the Hwy 150 & Ward Intersection as crudely shown below. Looks like this information is showing SE of the intersection at the Walgreens. Do you think this is going to be representative of the flows/pressures we will be receiving off of Arborwalk? It might be beneficial to have the flow test done on a hydrant along Arborwalk to better understand what will be happening on site.

Thanks,

Arrin Tieben, E.I.T.
