From: Scott Ready, Project Manager

Re:

Application Number: PL2023074

Application Type: Final Plat

Application Name: Village at New Longview

Location: 451 SW LONGVIEW BLVD, LEES SUMMIT, MO 64081

Tentative Schedule

Submit revised plans by 4pm on Monday, August 28. Revised documents shall be uploaded to the application through the online portal.

If the revised submittal deadline is not met or plans are deficient, the item will be moved to a later meeting and a new deadline will be set. Future deadlines and meeting dates can be found on the "Planning Commission Meeting Dates" handout. Dates are subject to change; we will keep you informed throughout the process.

Electronic Plans for Re-submittal

All Planning application and development engineering plan resubmittals shall include an electronic copy of the documents as well as the required number of paper copies.

Electronic copies shall be provided in the following formats

- Plats – All plats shall be provided in multi-page Portable Document Format (PDF).
- Engineered Civil Plans – All engineered civil plans shall be provided in multi-page Portable Document Format (PDF).
- Architectural and other plan drawings – Architectural and other plan drawings, such as site electrical and landscaping, shall be provided in multi-page Portable Document Format (PDF).
- Studies – Studies, such as storm and traffic, shall be provided in Portable Document Format (PDF).

Please contact Staff with any questions or concerns you may have.

Excise Tax

On April 1, 1998, an excise tax on new development for road construction went into effect. This tax is levied based on the type of development and trips generated. If you require additional information about this development cost, as well as other permit costs and related fees, please contact the Development Services Department at 816-969-1200.

Voluntary Residential Development Surcharge

In a combined effort with both the R-4 and the R-7 School Districts the City of Lee's Summit is working together to educate the development community on a new program, the "Lee's Summit Voluntary Residential Development Surcharge." This is a program which will help raise capital to build new schools for our community. Brochures are available at the front counter of both the Development Services Department. You can also find more information on the City of Lee's Summit web site at www.cityofls.net. (For more information please contact the Board of Education at 986-2400).

Analysis of Final Plat:

Planning Review	Hector Soto Jr. (816) 969-1238	Senior Planner Hector.Soto@cityofls.net	Corrections
------------------------	-----------------------------------	--	-------------

1. EASEMENTS. Each of the blocks has at least one general public general utility easement that runs through it. The boundaries of said easement(s) begin and terminate within the limits of each individual block, but does not continue onto the abutting common area (Tract A) that contains the private street/alley and then connects to other blocks where those easements continue. In other words, there is no continuous easement network because Tract A isn't public right-of-way, so a defined easement needs to extend onto the common area to cover the public infrastructure that crosses the privately-owned common area.

The comment above was not addressed on the resubmittal. Please call to discuss if the comment is unclear.

Engineering Review	Sue Pyles, P.E. (816) 969-1245	Development Engineering Manager Sue.Pyles@cityofls.net	Approved with Conditions
---------------------------	-----------------------------------	---	--------------------------

1. All required engineering plans and studies, including water lines, sanitary sewers, storm drainage, streets and erosion and sediment control shall be submitted along with the final plat and approved prior to the approval of the final plat. All public infrastructure must be substantially complete, prior to the issuance of any building permits.

2. All Engineering Plan Review and Inspection Fees shall be paid prior to approval of the associated engineering plans and prior to the issuance of any site development permits or the start of construction (excluding land disturbance permit).

3. All subdivision-related public improvements must have a Certificate of Final Acceptance prior to approval of the final plat, unless security is provided in the manner set forth in the City's Unified Development Ordinance (UDO) Section 7.340. If security is provided, building permits may be issued upon issuance of a Certificate of Substantial Completion of the public infrastructure as outlined in Article 3, Division V, Sections 3.540 and 3.550 and Article 3, Division IV, Section 3.475 of the UDO, respectively.

4. Please be aware that any future repair work to public infrastructure (e.g., water main repair, sanitary sewer repair, storm sewer repair, etc.) within public easements will not necessarily include the repair of pavement, curbing, landscaping, or other private improvements which are located within the easement.
