1. Please reference the Arborwalk West Public Street and Storm plans for the location of storm sewer Structure A-4, which is the upstream end of the public storm sewer system. A 25' utility easement will be required for this public system. Please locate in accordance with the proposed layout.

2. Include dedication language for the private sanitary sewer easement.

3. Is the 30' utility easement across the south end of Lots 1 & 2 for the proposed sanitary sewer extension? If so, this location can't be reviewed until those public plans have been submitted for review.
