Comment or Message: So, it says the Capital Improvements Sales tax will be used to fund 'stormwater infrastructure projects' throughout the city. (p. 4) Does this mean you are not going to ask for a stormwater tax?! The only way I am going to vote for that is if the developers, whose projects exacerbate these issues, stop getting incentives. We are taxed enough already and it adds insult to injury when these entities, who are not creating jobs and/or are stretching the definition of 'blight' to build apartment complexes we don't want or need at this point are given generous incentives while we see our tax bills continue to grow.

How much do these 'livable streets' elements p.21 add to the cost of the projects? Are these 'New Urbanism' ideals just adding costs without adding the value that these additions cost? I have never heard a cogent argument for a cost/benefit analysis - but may have missed it.

Page 39 lists the signal addition at Chipman and Todd George as '2024' but the 'cost' page on p. 40 & p.67 says FY 25 – so does this mean after July 1 2024. Why does a traffic signal cost over half a million dollars? Seems excessive.

Comment or Message: I'm fine with paying taxes for infrastructure, but the roads and parking lots are garbage. I'm fine with paying for law enforcement, but not when the cop's job is pulling only white people over and giving them tickets for bogus nonsense. LSPD is disgusting. Take your racism someplace else. btw, I will not pay for the Marxist piece of crap Lee's Summit school district, nor will I pay for Mid-Continent Public library, for the same reason. I see Section 8 housing being built in the Westvale neighborhood. That is disgusting as well. Come pick up the trash the druggies left at the end of Westvale Circle. I'm tired of looking at trash bags. You call yourself a city, yet Lee's Summit does not have a Half Priced Books store? We need a Half Price Books. Put it where Target is, or Ulta, or Old Navy. These stores suck. The government is so corrupt, I have a very hard time supporting it.

Comment or Message: As part of the Scherer reconstruction project, please look into safety improvements to Sampson Rd south of Scherer. This road has no shoulder and can't even accommodate simultaneous traffic in both directions.

Comment or Message: I would like to see improvements to the downtown infrastructure, specifically as it relates to stormwater drainage. It would also be nice if the stormwater run off from Lea McKeighen Park would be addressed as it is causing erosion and damage to the properties on the 600 block of Meadow Lane and Green.

Comment or Message: When looking at streets and roads please take a look at Fairway Drive from Lakewood Boulevard south to Edmonson. The asphalt is cracked and chipping, The curbs are failing. The intersection of Fairway Homes and Lakewood Boulevard to south is caving in, potholes and major cracks. It's as though it was never laid properly the first time. Thank you.
