1. Only one point of vehicle access is provided to this development and two are required. Second access to be concurrent with the Reserve, per response letter from Schlagerl.

1. "WOOD LN" is used in both the NE and SE part of the city. This must be a continuation of the existing road alignment in order to use this name. Please verify that this is a continuation of the existing road or change the name of the street. Per LSMO street name policy (April 2009):
Streets in general alignment with existing adjacent streets shall be given the same street name. Disconnected street segments shall adhere to this criterion even if there is no chance of a future connection. Streets shall have different names if they are not in alignment.
