

### **Purpose of Special Use Permit**

Some land uses (such as car dealerships, junk yards, and telecommunication towers) are only permitted upon the approval a Special Use Permit (SUP) for the specific use at a specific location. Table 6-1 of the Unified Development Ordinance lists uses that require a special use permit and shows the zoning districts in which such a permit may be considered. A new land use that is not listed in the zoning ordinance may also be considered through the Special Use Permit process. Special use permits are generally approved for a specific period of time, and are subject to renewal upon expiration. The renewal process is similar to the initial approval process.

The purpose of the public hearing process is to make sure that the proposed use is appropriate at the proposed location and compatible with existing or planned uses on the surrounding properties. The Planning Commission and City Council will consider any concerns that surrounding property owners or members of the general public may have regarding the proposed development and its impact on the community.

### Step 1 – Pre-Application Meeting

The UDO requires the applicant to meet with City Staff at a "pre-app" meeting prior to submitting an application. Staff members include representatives from Development Services, Public Works, Traffic Engineering, Fire, and Parks. An exchange of information early in the process can often make the rest of the development go more smoothly. The purposes of the pre-application meeting are:

- Applicant The applicant can explain the proposed development and present any sketches
  or plans. Detailed plans are not required, but the more information brought to the meeting,
  the more thorough and specific staff can be in response.
- Staff City staff will advise the applicant of:
  - Land use considerations, including compatibility with the Comprehensive Plan and adjacent land uses
  - Procedural requirements for submitting an application and going through the appropriate process
  - Site design regulations, including setbacks, parking, screening, traffic, and others
  - Building code regulations
  - Special studies required, such as traffic, storm water, etc.
  - Public sources of information that may aid the applicant
  - Policies that may create opportunities or pose significant restraints

### Step 2 – Filing the Application

The applicant must submit the following items to the Development Services Department:

• **Application -** A complete application for preliminary development plan, including all items identified in the Submittal Requirements checklist.

- **Drawings** The proper number and type of drawings, including site plan, landscape plan, building elevations and civil engineering plans. These include full-size and reduced drawings, **as well as an electronic copy**.
- Checklists Completed checklists. See UDO Article 2 for the preliminary development plan application contents and submission requirements.
- Fees Application filing fee and legal notice publishing charge, payable to the City of Lee's Summit see Schedule of Fees and Charges. Two legal notices are required for a preliminary development plan application. A single payment covering the application fee and legal notice charge may be accepted. An application may be withdrawn at any time upon written request; however, no refund will be made after the initial publication.
- Deadline All information must be submitted by the deadline date. Items will be placed on the Planning Commission agenda based upon the completeness of the application submittal. All additional information to support the application must be submitted by the deadline. The application will be delayed if information is missing or is not submitted by the deadline date.

### Step 3 – Neighborhood Meeting

One neighborhood meeting is required for each application, which must occur within the initial 10 day review period and prior to re-submission of the application. More than one neighborhood meeting may be held on an application, at the option of the applicant.

- **Timing and Location:** Within two miles of the project site, Monday through Thursday, excluding holidays; and start between 6:00 P.M. and 8:00 P.M. If a location for the meeting is not available within [2] miles of the subject property, the applicant shall select a location outside this area that is reasonably close to these boundaries.
- **Notification** shall be sent by certified mail or delivered to property owners within 300 feet of the project site. Mailed notices shall be postmarked at least seven days prior to the meeting. Hand deliveries must occur at least five days prior to the meeting.
- Notes: The Applicant shall take sufficient notes at the neighborhood meeting to recall issues
  raised by the participants, in order to report on and discuss them at public hearings before
  City governmental bodies on the application. The notes shall be turned in with the
  application re-submittal.

### Step 4 – Development Review Committee (DRC)

The Development Review Committee is a staff-only committee consisting of 10 to 15 representatives of various city departments and divisions that reviews each item on the agenda, and identifies relevant issues. The development departments then prepare written comments for the applicant, which will be sent to all parties listed on the application form (via fax or email) on the Friday before the Tuesday Applicant's Meeting. A Project Manager will be assigned as the project lead on each application.

### Step 5 – Applicant's Meeting

The applicant is required to attend an Applicant's meeting:

- **Staff** City staff will provide a technical review of the submitted plans and request any necessary plan revisions.
- Applicant The applicant will have an opportunity to ask questions.
- **Timeline** Staff will provide a timeline for the rest of the process. If extensive changes are required or more information is needed to adequately review the application (e.g. additional traffic or engineering studies), the application may be rescheduled to a later Planning Commission meeting date to allow time for the necessary work to be completed. If deficiencies are minor, the item will be scheduled for a Planning Commission meeting, subject to revised plans being submitted by the Revised Plans Due date.

This meeting is *not* the appropriate forum to discuss policy issues or negotiate any agreements. If an application involves policy issues or items that may be resolved through a development agreement, the Lead Planner will schedule a separate meeting with appropriate City staff.

### Step 6 – Notices and Posting of the Property

- Notice in Newspaper City <u>staff</u> will prepare and publish the required legal notice of the time and place of the public hearings, which must be published 15 days prior to the hearing in an official City paper.
- Letters to Surrounding Property Owners The <u>applicant</u> must mail notices by certified mail, to all property owners within 300 feet of the property, at least 15 days prior to the hearing, notifying them of the opportunity to be heard. A form letter for the notice can be obtained from the Development Services Department. An affidavit must be submitted certifying that notice has been sent, along with a list of property owners and a copy of the letter sent.
- **Sign** The <u>applicant</u> must post a sign on the premises at least 15 days prior to the date of the hearing, informing the public of the time and place of the public hearing. The City will furnish the sign to the applicant for posting. The applicant shall make a good faith effort to maintain the sign for at least 15 days immediately preceding the date of the hearing through the hearing, and through any continuances of the hearing. The sign shall be placed within 5 feet of the street right-of-way line in a central position on the property. The sign shall be readily visible to the public. If the property contains more than 1 street frontage, 1 sign shall be placed on each street frontage so as to face each of the streets. The sign may be removed at the conclusion of the public hearing and must be removed at the end of all proceedings on the application or upon withdrawal of the application.

### Step 7 - Planning Commission Public Hearing

The Planning Commission consists of nine (9) appointed citizens who meet on the second and fourth Thursday of each month in the Council Chambers of City Hall at 220 SE Green Street. All meetings are televised on the local cable television government channel.

The Commission holds a public hearing on each preliminary development plan application and makes a recommendation to the City Council.

- Applicant's presentation The applicant begins the public hearing with a presentation, which should include a brief description of the proposed project and a response to any concerns raised in the staff report. Visual presentations shall be:
  - In electronic format on a laptop, CD ROM, DVD, or flash drive. The City's presentation system can support Word, Excel, Power Point, Adobe, Windows Media Player and Internet Explorer applications.
  - Reduced drawings for use on the Document Camera to display on the screen. Presentation boards will not be allowed, as they cannot be seen by the audience.
  - Samples of building materials (samples are required to be brought to the meeting or submitted in advance, and shall be retained by the City); and any additional information which the applicant wishes to bring to the meeting (for example, color renderings, maps, photographs, or petitions). (It is recommended that any additional information be provided to staff in advance, so it can be included in the Commissioner's packets.)
- Staff's presentation Staff will then give a staff report and recommendation.
- **Public comments** members of the audience will be given an opportunity to speak. If issues or concerns are raised by the public, the applicant is typically given an opportunity to respond.

**Commission discussion and decision -** The Commission members may ask questions of either staff or the applicant. Finally, the public hearing portion of the meeting is closed, and the Planning Commission discusses the action that should be taken and the reasons for that action. The Planning Commission's action is a recommendation to the City Council to either approve, approve with conditions, or deny the application. The Planning Commission may also vote to continue an application to a later meeting to allow further study or the submission of information by the applicant or staff. Once the Planning Commission has made a recommendation, a hearing (typically three weeks later) will be scheduled before the City Council.

### Step 8 – City Council Public Hearing

The Lee's Summit City Council holds public hearings at their regular meetings on the first and third Tuesdays of each month at the Council Chambers of City Hall at 220 SE Green Street.

- **Public Hearing** The format of the public hearing is similar to that used by the Planning Commission and applicants should plan on making a similar type of presentation. After the City Council has listened to the presentations and to any public comments, they will discuss the application and then take action. The City Council will either reject the request or direct staff to prepare an ordinance granting the zoning change.
- **Ordinance** The ordinance is normally read at a subsequent City Council meeting and approved or denied.

My Commission	Expires:

In considering a special use permit application, the Planning Commission and City Council will give consideration to the criteria stated below to the extent they are pertinent to the particular application. (See UDO Section 6.650.)

- 1. Character of the neighborhood.
- 2. Compatibility with adjacent property uses and zoning.
- 3. Suitability of the property for which the special use is being requested.
- 4. Extent to which the proposed use will negatively impact the aesthetics of the property and adjoining properties.
- 5. Extent to which the proposed use will injure the appropriate use of, or detrimentally affect, neighboring property.
- 6. Impact on the street system to handle traffic and/or parking.
- 7. Impact of additional storm water runoff to the existing system or to the water shed area if no storm sewer is available.
- 8. Impact of noise pollution or other environmental harm.
- 9. Potential negative impact on neighborhood property values.
- 10. Extent to which there is need of the proposed use in the community.
- 11. Economic impact upon the community.
- 12. Extent to which public facilities and services are available and adequate to satisfy the demand generated by the proposed use.
- 13. Comparison of the benefit gained to the public health, safety and welfare of the community if approved versus the hardship imposed upon the landowner if the requested application is denied.
- 14. Conformance to the UDO and current city policies and ordinances.
- 15. Recommendation of professional staff.
- 16. Consistency with permitted uses in the area in which the special use is sought.

### SPECIAL USE PERMIT EXPLANATION

In addition to the special use permit criteria, special conditions relate to the operation of certain uses. From Article 6 of the UDO, list the special conditions that relate to the requested use. Explain <a href="Molecular: INDETAIL">INDETAIL</a> how this application meets each of the special conditions. <a href="Failure to complete each will result in an incomplete application.">Failure to complete each will result in an incomplete application.</a>

The cell tower at 207 SE Douglas, Lee's Summit, MO 64063 has been a longstanding fixture in the community, existing for over 20 years. This established presence highlights its compatibility with the character of the neighborhood, which has adapted to and integrated the tower into its landscape. The adjacent property uses and zoning have coexisted harmoniously with the tower, demonstrating its suitability and minimal impact on the surrounding area. Over the years, the tower has shown minimal aesthetic impact, as it has become a familiar part of the local landscape. Its design and placement ensure that it does not detract from the area's visual appeal. The tower has not harmed the proper use of neighboring properties or negatively affected them, as indicated by the ongoing development and functionality of adjacent properties.

The long-standing presence of the cell tower underscores its significance in meeting the telecommunications needs of the community. It has positively influenced the local economy by enhancing wireless connectivity. Public facilities and services have effectively supported the tower's operations, and it has consistently adhered to the Uniform

Development Ordinance and city policies. Renewing the special use permit further solidifies the tower's ongoing operation, emphasizing its compliance with permitted uses in the area. Furthermore, the tower supplies crucial wireless connectivity for residents, businesses, and first responders, ensuring reliable communication and safety for the community.

In evaluating the special use permit application, the Planning Commission and City Council should consider the cell tower's established role in the community. Its compatibility with the neighborhood, minimal aesthetic impact, and positive influence on the local economy demonstrate its suitability for continued operation. The tower's adherence to city policies and its importance in addressing telecommunications needs further reinforce the renewal of the special use permit, ensuring it continues to benefit the community without negatively affecting neighboring properties.

### **SPECIAL USE PERMIT CHECKLIST**

Submittal Requirements	Yes	No*
Completed special use permit application form with signatures	Χ	
Ownership Affidavit form	Χ	
Legal description	Χ	
Filing fee – See Development Services Fees under the Schedule of Fees and Charges found at <a href="https://www.cityofls.net">www.cityofls.net</a> .	Х	
Special use permit plans – 1 digital multi-page PDF plan sets, studies, letter and applications shall be separate files	Х	
File Naming Conventions- All uploaded files should be named as follows		
DOCUMENT NAME_REVISION NUMBER_DATE OF PLAN STAMP	Χ	
Comprehensive narrative description of the use, both as to the function and operation, and as to structures, installations, equipment or surface improvements, changes or other requirements incidental to the use sought.	х	
Color photographs of surrounding structures within 185 feet and elevation drawings of the proposed special use in sufficient detail to determine compliance with the zoning district regulations in which the special use is to be located.	х	
Completed "Special Use Permit – Explanation" sheet describing how requested use relates to conditions listed in UDO Article 10, Div. II – Specified special uses.	Х	
Completed preliminary development plan application form with necessary plans, fee, checklist, etc. as required for that application	Х	

### \* Applications missing any required item above will be deemed incomplete.

# 2025 STRUCTURAL INTEGRITY LETTER

Bradley E. Byrom, P.E., S.E. Senior Project Engineer Tower Assets - Engineering Tel: 724-416-9657 Bradley.Byrom@crowncastle.com

Crown Castle 2000 Corporate Drive Canonsburg, PA 15317

May 9, 2025

Subject: Structural Integrity Letter

Crown Castle Designation: BU Number: 877803

Site Name: LEE'S SUMMIT FIRE STATION

Site Data: 207 SE Douglas, Lee's Summit, Jackson County, MO Latitude 38° 54′ 49.83″, Longitude -94° 22′ 34.78″

180 Foot - Monopole Tower

This letter is to attest to the structural integrity of the above-mentioned site based on the Structural Analysis Report by TEP dated October 27, 2024. The antenna and cable loading used in the analysis was confirmed to be in general conformance with the current configuration with the addition of proposed equipment. Therefore, the referenced Structural Analysis Report is valid and the tower structure and foundation are sufficient.

This letter also attests to the fact that, to the best of our knowledge, the tower structure operated by Crown Castle and located at the address referenced above has been installed and maintained in accordance with the manufacturer's specifications, is in good condition, does not have any missing or corroded members, and meets the requirements of the building code.

The TIA-222 Standard that governs telecommunication tower structures provides recommendations related to regular inspection and maintenance of the structures. Crown Castle has a robust inspection and maintenance plan in place that exceeds the recommendations of TIA-222 and includes:

- biennial ground-based inspections (GBI)
- visual inspections during each carrier equipment installation
- post tower modification installation inspections supervised and sealed by a registered Professional Engineer
- rigorous climbed (TIA) inspections: guyed masts (3 yrs.), self-supporting structures (5 yrs.) and monopoles (7 yrs.)

Crown Castle trains and certifies inspectors and has numerous internal standards and procedures in place to ensure that issues are identified and reported. Structural issues that are identified during an inspection which require engineering review are directed to Crown Castle Engineering to be reviewed by registered design professionals.

The last climbed TIA inspection was performed on February 2, 2022, and the last ground-based inspection was performed on January 31, 2025. There are no unresolved structural issues or deficiencies that were identified during these inspections. The next ground-based inspection is scheduled for January 31, 2027, and the next TIA inspection is scheduled for February 2, 2029.

In conclusion, the referenced tower structure is regularly inspected for structural and non-structural issues. Based on the preceding information and to the best of our knowledge, the referenced tower presents no safety issues to the general public or the adjacent properties.

If you have any questions or concerns, please don't hesitate to contact me.

Sincerely,

Bradley E. Byrom, P.E., S.E. Senior Project Engineer

<b>Latitude</b> 38-54-49.8 N	<b>Longitude</b> 094-22-34.7 W	NAD83	Overall Height Above Mean	Sea Level (AMSL) 373.1 meters
Painting and Lighting Requirement NONE  Conditions:	its:			

This registration is effective upon completion of the described antenna structure and notification to the Commission. YOU MUST NOTIFY THE COMMISSION WITHIN 24 HOURS OF COMPLETION OF CONSTRUCTION OR CANCELLATION OF YOUR PROJECT, please file FCC Form 854. To file electronically, connect to the antenna structure registration system by pointing your web browser to http://wireless.fcc.gov/antenna. Electronic filing is recommended. You may also file manually by submitting a paper copy of FCC Form 854. Use purpose code "NT" for notification of completion of construction, use purpose code "CA" to cancel your registration.

The Antenna Structure Registration is not an authorization to construct radio facilities or transmit radio signals. It is necessary that all radio equipment on this structure be covered by a valid FCC license or construction permit.

You must immediately provide a copy of this Registration to all tenant licensees and permittees sited on the structure described on this Registration (although not required, you may want to use Certified Mail to obtain proof of receipt), and *display* your Registration Number at the site. See reverse for important information about the Commission's Antenna Structure Registration rules.

You must comply with all applicable FCC obstruction marking and lighting requirements, as set forth in Part 17 of the Commission's Rules (47 C.F.R. Part 17). These rules include, but are not limited to:

- Posting the Registration Number: The Antenna Structure Registration Number must be displayed in a conspicuous place so that it is readily visible near the base of the antenna structure. Materials used to display the Registration Number must be weather-resistant and of sufficient size to be easily seen at the base of the antenna structure. Exceptions exist for certain historic structures. See 47 C.F.R. 17.4(g)-(h).
- Inspecting lights and equipment: The obstruction lighting must be observed at least every 24 hours in order to detect any outages or malfunctions. Lighting equipment, indicators, and associated devices must be inspected at least once every three months.
- Reporting outages and malfunctions: When any top steady-burning light or a flashing light (in any position) burns out or malfunctions, the outage must be reported to the nearest FAA Flight Service Station, unless corrected within 30 minutes. The FAA must again be notified when the light is restored. The owner must also maintain a log of these outages and malfunctions.
- Maintaining assigned painting: The antenna structure must be repainted as often as necessary to maintain good visibility.
- Complying with environmental rules: If you certified that grant of this registration would not have a significant environmental impact, you must nevertheless maintain all pertinent records and be ready to provide documentation supporting this certification and compliance with the rules, in the event that such information is requested by the Commission pursuant to 47 C.F.R. 1.1307(d).
- *Updating information:* The owner must notify the FCC of proposed modifications to this structure; of any change in ownership; or, within 30 days of dismantlement of the structure.

Copies of the Code of Federal Regulations (which contain the FCC's antenna structure registration rules, 47 C.F.R Part 17) are available from the Government Printing Office (GPO). To purchase CFR volumes, call (202) 512-1800. For GPO Customer Service, call (202) 512-1803. For additional FCC information, consult the Antenna Homepage on the internet at http://wireless.fcc.gov/antenna or call (877) 480-3201 (TTY 717-338-2824).

## NOTICE TO OTHERS ENDORSEMENT – SCHEDULE NOTICE BY INSURED'S REPRESENTATIVE

Named Insured	Crown Castle Inc.		Endorsement Number 3
Policy Symbol ISA	Policy Number H11357131	Policy Period 04/01/2025 TO 04/01/2026	Effective Date of Endorsement
, ,	e of Insurance Company) an Insurance Company		

Insert the policy number. The remainder of the information is to be completed only when this endorsement is issued subsequent to the preparation of the policy.

#### THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

- **A.** If we cancel this Policy prior to its expiration date by notice to you or the first Named Insured for any reason other than nonpayment of premium, we will endeavor, as set out in this endorsement, to send written notice of cancellation, to the persons or organizations listed in the schedule that you or your representative create or maintain (the "Schedule") by allowing your representative to send such notice to such persons or organizations. This notice will be *in addition to* our notice to you or the first Named Insured, and any other party whom we are required to notify by statute and in accordance with the cancellation provisions of the Policy.
- **B.** The notice referenced in this endorsement as provided by your representative is intended only to be a courtesy notification to the person(s) or organization(s) named in the Schedule in the event of a pending cancellation of coverage. We have no legal obligation of any kind to any such person(s) or organization(s). The failure to provide advance notification of cancellation to the person(s) or organization(s) shown in the Schedule will impose no obligation or liability of any kind upon us, our agents or representatives, will not extend any Policy cancellation date and will not negate any cancellation of the Policy.
- **C.** We are not responsible for verifying any information in any Schedule, nor are we responsible for any incorrect information that you or your representative may use.
- **D.** We will only be responsible for sending such notice to your representative, and your representative will in turn send the notice to the persons or organizations listed in the Schedule at least 30 days prior to the cancellation date applicable to the Policy. You will cooperate with us in providing the Schedule, or in causing your representative to provide the Schedule.
- **E.** This endorsement does not apply in the event that you cancel the Policy.

All other terms and conditions of this Policy remain unchanged.

General Comments:	
Site is in good condition. Updated Utilities & Generators Tabs. Unable to capture tower photos from the south due to physical obstructions. Grout and monopole debris is being addressed under NOC Ticket 3512751. SOM sent an email to Real Estate, Verizon PM, and TOM asking for a meeting to discuss the continued issues with the fire department impeding on our lease space More to follow. Sprint's DECOM date is effective December 31, 2025.	:-
Previous Inspection Comments:	
Inspection Date: 2024-03-25 Comment: Site is in good condition. Updated Utilities & Generators Tabs. Unable to capture tower photos from the south due to physical obstructions. Grout and monopole debris is being addressed under NOC Ticket 3512751. SOM sent an email to Real Estate, Verizon PM, and TOM asking for a meeting to discuss the continued issues with the fire department impeding on our lease space. More to follow. Sprint's DECOM date is effective December 31, 2025.	
Inspection Date: 2023-02-13 Comment: Site is in good condition. Updated Utilities Tab. Unable to capture tower photos from the east and west due to physical obstructions. Safety climb is not secured in the top cable guides and is very close to rubbing on the allthread for newly installed tower sirens. SELF-PERFORM: FOT sent an email to Real Estate asking for clarification in regards to our lease space/contract with the fire department due to they now have installed sirens on the tower. More to follow.	
Inspection Date: 2021-03-16 Comment: Site is in good condition. Updated Utilities Tab. Unable to capture tower photos from the north and south due to physical obstructions. The fire department has installed a new HVAC system on Sprint's pad. Sprint was notified last year, so no action will be taken. Safety climb is not secured in the top cable guide.	
Inspection Date: 2020-03-24  Comment: Josh Taylor ~ GBI completed and site is in good condition. *Verified tower and access road coordinates. *Rehung	_

Latitude 38°54' 49.83", Longitude -94°22' 34.78"

180 Foot - Monopole Tower

TEP is pleased to submit this "Structural Analysis Report" to determine the structural integrity of the abovementioned tower.

The purpose of the analysis is to determine acceptability of the tower stress level. Based on our analysis we have determined the tower stress level for the structure and foundation, under the following load case, to be:

LC5: Proposed Equipment Configuration

Sufficient Capacity

This analysis has been performed in accordance with the 2018 International Building Code based upon an ultimate 3-second gust wind speed of 109 mph. Applicable Standard references and design criteria are listed in Section 2 - Analysis Criteria.

Structural analysis prepared by: RPD / SMS

Respectfully submitted by:

Aaron T. Rucker, P.E. MO # PE – 2017032011 Structural Department Manager

# Why Crown Castle – Site Safety

## **State & Federal Compliance**

- EPA, FAA & FCC
- In-house legal team dedicated to compliance issues

## Safety

- Yearly ground-based inspections
- Structural inspection per industry standards
- Incident Response & Disaster Recovery Program

## **Network Operations Center**

- Open 24/7
- · Monitors critical systems
- Responds to network outages
- Calls answered by live representatives

# Thank you

For further information please contact:

## **Paul Peckens**

Agent, Crown Castle (804) 833-4015 paul.peckens.vendor@crowncastle.com
